Alex Example

Backend Developer

alex@example.com | (555) 555-0100 | Springfield, USA

Summary

Backend developer with five years of experience building and maintaining Python web services and data pipelines. Focused on reliable APIs, clear tests, and automated deployment.

Experience

Software Developer, Sample Data Labs
March 2021 – Present | Springfield, USA

- Built and maintained REST APIs with Python and FastAPI for internal analytics tools.
- Designed PostgreSQL schemas and wrote migrations for a reporting database.
- Containerized services with Docker and added automated tests that run on every commit.
- Reduced average API response time by 35% by adding caching and query indexes.

Junior Developer, Example Software Co.
June 2018 – February 2021 | Springfield, USA

- Developed internal tools in Python for data cleaning and report generation.
- Wrote SQL queries and maintained a PostgreSQL database for the support team.
- Fixed bugs, reviewed pull requests, and documented setup steps for new teammates.

Education

B.Sc. in Computer Science, Example State University
2014 – 2018

Skills

Languages: Python, SQL, JavaScript
Frameworks and tools: FastAPI, PostgreSQL, Docker, Git, pytest
Practices: REST API design, test-driven development, code review
